You can access the Information Booklet on the Allan Gray website (www.allangray.com.au) or request a copy free of charge by calling us. You should consider these documents before making a decision about the Fund.

In this PDS, a reference to units in the Fund is a reference to Class A units in the Fund.

The information in these documents is of a general nature only and does not take into account a person's personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before investing in the Fund.

This PDS is intended for investors residing in Australia. If you are not resident in Australia, it is your responsibility to comply with the laws of where you are from or living if you decide to invest in the Fund.

The Fund has been approved under section 65 of the Collective Investment Schemes Control Act 2002 and can be promoted in South Africa. The Fund may also be offered to New Zealand investors under Subpart 6 of Part 9 of the Financial Markets Conduct Act 2013. Before investing, South African and New Zealand investors must read the additional information document for their jurisdiction.

US Persons are not generally permitted to invest in the Fund. However, we will accept applications from US Persons who are genuinely residents in Australia, New Zealand or South Africa. The Fund is not a recognised or authorised collective investment scheme for the purpose of the United Kingdom's Financial Services and Markets Act 2000 and not marketed in the European Economic Area (EEA). We may update this PDS with changes that are not materially adverse via disclosure on our website.

1. ABOUT EQUITY TRUSTEES LIMITED

Equity Trustees Limited (EQT)

EQT is the Fund's responsible entity and issuer of this Product Disclosure Statement. EQT was established in 1888 by an Act of Victorian Parliament to provide trustee and executor services. It has evolved into a diversified financial services provider offering a broad range of products and services to a large client base. EQT's responsibilities and obligations as the Fund's responsible entity are governed by the Fund's Constitution, the Corporations Act 2001 (Cth) and general trust law.

Allan Gray Australia Pty Limited (Allan Gray)

EQT has appointed Allan Gray to invest and manage the Fund's assets according to the investment guidelines in this PDS.

Allan Gray is a privately-owned Australian incorporated company with its main office in Sydney. Since 2006 Allan Gray has been consistently applying its investment approach and philosophy in Australia, with a view to building wealth for its clients. It traces its investment management approach directly to the vision and ideals of Dr Allan Gray, who also founded Allan Gray Proprietary Limited in South Africa and the Orbis Group, a global fund manager. Allan Gray Australia, Allan Gray South Africa and the Orbis Group share the same investment approach and philosophy, and together manage combined assets of over AUD 90 billion as at the end of January 2017.

You can read more about Allan Gray Australia at www.allangray.com.au

2. HOW THE ALLAN GRAY AUSTRALIA EQUITY FUND WORKS

The Fund is a managed investment scheme or unit trust, registered with the Australian corporate regulator, the Australian Securities and Investments Commission (ASIC). Unit trusts are vehicles that allow investors to pool their money with other investors. An investment manager (in this case Allan Gray) then manages the money. Allan Gray manages the pooled money in accordance with the investment guidelines set out in section 5 'How we invest your money'.

Interest that members acquire

When you invest, you buy Class A units in the Fund and become a member or unit holder. These units give you a beneficial interest in the Fund. You do not, however, have any entitlement to any particular part of the Fund or its assets and you are not entitled to participate in the management or operation of the Fund (except through investor meetings). Your return will mirror the return of the Fund's underlying investments, after expenses.

There are three ways to invest in the Fund:

- by completing the application form attached to this PDS
- through a platform that offers the Fund as an investment option (see section 1.7 of the Information Booklet), or
- through your stockbroker via mFund. Investing using mFund means that you can only transact (i.e. buy or redeem units in the Fund) through your stockbroker. Please contact us or your stockbroker if you require more information about the mFund process or see section 1.10 of the Information Booklet.

Pricing of the Fund

Units in the Fund are priced daily based on Class A's share of the Fund's net asset value. The price of the units will vary as the market value of the Fund's assets rise or fall.

When you invest in the Fund, you will be allocated units at the Class A application (entry) price for the Business day on which we process your application. When you redeem (withdraw), we will redeem your units at the Class A redemption (exit) price for the Business day on which we

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

process your redemption request. The application and redemption price has a buy/sell spread built in. The buy/sell spread is designed to protect existing investors by ensuring that those who invest in, or redeem from, the Fund cover the cost of buying or selling the Fund's underlying securities. EQT estimates this cost to be 0.20% of the cost of a unit when investing or redeeming.

Income distribution frequency and calculation

The Fund intends to distribute its distributable income (if any) on 30 June each year. The Fund's Constitution allows the Fund to make additional distributions.

What is an income distribution?

An income distribution is the payment of the Fund's distributable income to investors. It may include interest, dividends, and realised capital gains. Your distribution is the

sum of your proportional entitlement to the Fund's distributable income and will be different from year to year.

Distribution options

You can choose to have your distributions reinvested in the Fund or credited directly to your nominated Australian bank account. If you do not have an Australian bank account (for example, if you are a South African or New Zealand investor), your distributions will be automatically reinvested. Distribution payments to the nominated bank account are generally made within 10 Business days after the end of the distribution period. No buy/sell spread applies on distributions that are reinvested.

Before investing in the Fund, New Zealand investors must read the 'Information for New Zealand investors' document, which provides more information about how the Fund's distribution reinvestment terms apply to you.

Minimum investment and redemption amounts and the cut-off times for processing transactions

Initial investments	Minimum of AUD 10,000 or set up a regular savings plan of at least AUD 500 per month. See section 8 'How to apply'.
Regular savings plan	Minimum of AUD 500 per month
Additional investments	Minimum of AUD 1,000 and/or at least AUD 500 per month through the regular savings plan. See section 8 'How to apply'.
Redemption	No minimum, except if you are redeeming through a regular redemption plan, a minimum of AUD 500 per month applies. We normally pay redemption proceeds within seven Business days after receipt of a valid redemption request. Under some circumstances, such as if there is a freeze on redemptions, you may not be able to redeem from the Fund when you wish to.
Processing applications or redemptions (cut-off times)	If we receive all applicable application or redemption documents before or on 2pm (Sydney time) on a Business day, we will process the transaction using that day's application or redemption price. Requests received after 2pm (Sydney time) on a Business day or non-Business day will generally be treated as having been received before the cut-off time on the next Business day. Different cut-off times apply if you are transacting via mFund. Please contact Client Services or your stockbroker for more information. See section 8 'How to apply'.

You should read the important information about:

- (1) your general rights and obligations, the Fund's Constitution and our responsibilities, and
- (2) investing, managing and redeeming your investment, in the Information Booklet before making a decision.

Go to www.allangray.com.au/documents/infobook.pdf for a copy of the Information Booklet. The material relating to your rights and obligations dealing with the acquisition and disposal of units may change between the time when you read this PDS and the day when you acquire units in the Fund.

3. BENEFITS OF INVESTING IN THE ALLAN GRAY AUSTRALIA EQUITY FUND

Significant features of the Fund

Please consider whether the expected Fund characteristics below suit your investment needs and if you are comfortable with the risks of investing in the Fund. If you are in any doubt, please seek professional advice before investing.

Access to a contrarian investment approach

The Fund's investment approach sees it looking to buy securities that offer long term value that are currently unpopular with the general investment community and financial press, or are not well known to the financial community. These securities are often underpriced by the market because sellers significantly outnumber buyers.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

In these circumstances, Allan Gray is often early when buying such securities, which means that the Fund may experience some fluctuations or volatility. Allan Gray believes that these fluctuations are unfortunately necessary to gain the upside when the sharemarket recovers.

Benchmark-unaware and high conviction

Allan Gray will not buy a security simply because it is in the S&P/ASX 300 Accumulation Index (Benchmark) – it has to offer value as an investment. Allan Gray will also buy significant positions in securities that it believes may offer outstanding value even if these securities are not in the Benchmark.

Defined investment restrictions

The Fund has detailed investment restrictions/limits. The Fund is unable to purchase investments that are outside these restrictions.

Focused on the longer term

The Fund's investments are based on research which has a long term focus of five to ten years.

Fully invested

The Fund aims to be fully invested in the sharemarket so that there are no prolonged periods where it will hold more than 10% of its assets in cash.

You should read the important information about other features of the Fund in the Information Booklet before making a decision.

Go to www.allangray.com.au/documents/infobook.pdf for a copy of the Information Booklet. The material relating to the Fund's other features may change between the time when you read this PDS and the day you acquire units in the Fund.

Significant benefits of the Fund

The Fund has two significant benefits, both related to the Fund's aim to be fully invested in Australian equities at all times.

1. Real returns

The Fund focuses on buying investments that Allan Gray believes will offer long term value. Long-term investing in equities should provide an investor with a return that beats the risk-free interest rate (cash) as well as returns that beat inflation.

2. The value that Allan Gray adds

The Fund aims to outperform the Australian sharemarket, and in particular, the Benchmark through the Allan Gray investment philosophy. If this is achieved, an investor could benefit from returns that are above both inflation and the overall sharemarket. Read more about this philosophy in section 5 'How we invest your money'.

4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long term returns may also carry the highest level of short-term risks. This page highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets, and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, an investment in the Fund, repayment of capital or any rate of return, or the Fund's investment performance. You may lose money by investing in the Fund or your investment in the Fund may not meet your objectives.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Sharemarket and individual investment risks

Sharemarkets and investments are generally volatile. As the Fund aims to be fully invested, the value of your investment in the Fund may fluctuate with the sharemarket. In addition, losses for the Fund may also not be linked to the sharemarket's overall returns. Such losses can arise for reasons specific to a company (e.g. a change in management) or if Allan Gray makes investment decisions resulting in poor returns.

Fund risk

The Fund could terminate, laws affecting registered managed investment schemes may change in the future, EQT or Allan Gray could become insolvent, and the fees and expenses could materially change. Investing in the Fund may give different results than investing directly in securities because of income or capital gains accrued in the Fund and because of investors redeeming from the Fund.

Liquidity risk

The Fund may, at times, buy securities which have limited levels of liquidity. Abnormal or difficult market conditions, inadequate market depth or disruptions to financial markets may result in normally liquid assets becoming illiquid or less liquid. As such, it may not be possible to sell the Fund's investments in time to pay unexpected large redemptions or there could be a significant delay before redemptions are paid. The ability to redeem may be suspended in the interests of all the investors in the Fund, even if other assets of the Fund may be readily sold.

Contractual risk

The Fund's counterparties may default on a transaction or the Fund's custodian may become insolvent. If this occurs, there may be additional costs or time delays associated with settling a transaction or appointing another custodian.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

This may have an effect on your ability to invest in, or redeem from, the Fund.

Derivatives risk

The Fund's derivatives exposure is predominantly limited to buying ASX-listed futures contracts to maintain the Fund's exposure to the ASX pending a decision on how to invest the Fund's cash. Trading in futures contracts does expose the Fund to the following risks:

- the loss of value because of a sudden price move
- potential illiquidity of the futures contract, or
- the inability of the Fund or the counterparty to meet margin payments.

Key personnel risk

The Fund depends on the expertise of Allan Gray and its employees. The Fund's performance could be negatively affected if Allan Gray does not retain key employees.

5. HOW WE INVEST YOUR MONEY

Fund investment profile

Benchmark

S&P/ASX 300 Accumulation Index.

Investment objective

To seek long-term returns that are higher than the Benchmark.

Investment approach

Contrarian - Long-term - Fundamental

Investment exposure

Predominantly Australian listed securities.

Strategy

The Fund employs the Allan Gray investment philosophy to search for ASX investments based on defined investment restrictions (see Asset allocation).

Investor profile

Before you invest, you should consider the likely investment returns, the risk and your investment timeframe.

Minimum suggested time frame

More than five years.

Risk level

High risk.

Investor suitability

The Fund may be suitable for investors:

- looking for a contrarian investment style exposure to the Australian sharemarket
- who are able to take a long-term view, and
- who can endure performance fluctuations.

Asset allocation

Allan Gray will implement the above strategy by adhering to the following investment restrictions. These restrictions are measured at a Fund level, and not at a class level.

1. Weights	The Fund's weight for a specific share shall not exceed that share's weight in the Benchmark by more than 10 percentage points.
2. Holdings	The Fund will not hold more than 10% of a company's issued voting shares.
3. Listed securities	No more than 10% of the Fund's net asset value may be invested in securities which are not traded on or under the rules of a sharemarket, and only where there is an expectation that the securities will be listed or convertible into listed securities within 12 months of acquisition.
4. Exposure	Allan Gray may not actively reduce the effective share exposure to below 90% of the Fund's net asset value.
5. No leverage	The effective share exposure shall not exceed 100% of the Fund's net asset value.
6. Options	No more than 5% of the Fund's net asset value may be invested in call options.
7. Derivatives	The Fund may invest no more than 10% of its net asset value in listed futures contracts for the primary purpose of managing liquidity and only if the underlying exposure is fully covered by cash or money market instruments.
8. Borrowing	The Fund has never borrowed and cannot borrow unless it is to meet unexpected large redemptions. Borrowing is limited to 10% of the Fund's net asset value and must be repaid within 90 days.
9. Investment grade	Any investment by the Fund in interest-bearing non-equity linked securities is restricted to Investment Grade Securities.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

The Allan Gray investment philosophy

The Allan Gray philosophy covers three main principles – Contrarian, Long-term and Fundamental:

- **Contrarian** – we take a contrarian approach to investing by resisting popular trends and uncovering opportunities in areas where nobody else is looking.
- **Long-term** – we take a long-term view. We are willing to look through short term noise and wait for an investment's value to be realised. In a competitive market, practicing patience can give you a distinct advantage.
- **Fundamental** – we concentrate on understanding an investment's intrinsic value, and the fundamentals that determine value, rather than trying to forecast the next price move.

Investment restrictions

Allan Gray is permitted to make an investment which is not consistent with the investment restrictions if EQT and Allan Gray agree that the investment is not a material departure from the investment restrictions.

Labour standards, environmental, social or ethical considerations (ESG)

ESG considerations are only taken into account to the extent that they may have a material impact on the long term financial value of an investment. Allan Gray has no formal ESG policy and has not developed a methodology or weighting system for considering how ESG impacts an investment decision.

6. FEES AND COSTS

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from AUD 100,000 to AUD 80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed fund calculator to help you check out different fee options.

The table below can be used for comparison against other funds. The ASIC website managed fund calculator can be used to calculate the effect of fees and costs on account balances.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee (the fee to open your investment)	Nil
Contribution fee (the fee on each amount contributed to your investment)	Nil
Withdrawal fee (the fee on each amount you take out of your investment)	Nil
Exit fee (the fee to close your investment)	Nil
Management costs† - the fees and costs for managing your investment	
Base fee: Calculated and accrues daily at a rate of 0.75% p.a. (0.77% p.a. including GST net of RITC) of the Fund's net asset value. This fee is payable monthly.	0.75% p.a.
Performance fee: 20% (20.5% including GST net of RITC) of the Fund's outperformance, net of the base fee, in comparison to its Benchmark. A performance fee is only payable where the Fund's outperformance exceeds the high water mark, which represents the highest level of outperformance, net of base fees, since the Fund's inception.	20% of outperformance over the Benchmark, subject to reaching a high water mark.

† Additional fund expenses and stockbroker fees may apply (see the following page).

Fund expenses

Allan Gray has agreed to pay fees charged by the Fund's responsible entity, independent custodian and administrator

as well as customary professional fees incurred by the Fund on a day-to-day basis from the fee it receives from the Fund. Aside from the management costs, other costs investors pay include:

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

- transaction costs such as brokerage, settlement costs, clearing costs and stamp duty in connection with the buying or selling of investments for the Fund, and
- certain extraordinary and unusual expenses incurred on behalf of the Fund from time to time, such as the cost of litigation.

Financial adviser fees

You may elect to have the Fund pay your financial adviser a fee from your investment in the Fund. This may be as:

- a contribution fee of up to 2% when you invest in the Fund, and/or
- an ongoing fee of up to 1% p.a.

We cannot pay fees to your financial adviser if you invest via mFund.

NOTE: The financial adviser you consult may charge you additional fees. Please refer to the adviser's statement of advice.

Changes to fees

We will give you at least 30 days prior notice of any proposal to increase these fees (excluding fund expenses). We may also reduce or waive these fees and management costs for certain sophisticated, professional or wholesale investors. Any such arrangement will comply with all applicable regulatory (ASIC) requirements.

Allan Gray will provide Base fee rebates to each investor holding units in the Fund with a net asset value of at least AUD 50 million:

- a significant holdings rebate of 0.25% per annum of the investor's net asset value in the Fund, and
- a long-term investor rebate of 0.05% per annum of the investor's net asset value, where the investor has been invested in or intends to invest in the Fund for at least 5 years.

These rebates are provided by way of additional units in the Fund and do not apply to investors that already receive a product (shelf) fee from Allan Gray.

Performance fees

Performance fees are calculated and accrued daily and paid monthly.

Buy/sell spread

The Fund's buy/sell spread is 0.20% of the cost of a unit when investing or redeeming. However, no buy/sell spread applies if you switch your investment between different classes of units in the Fund.

Stockbroker fees

If you are investing via mFund, your stockbroker (and not the Fund) may charge you a brokerage fee. Please consult your stockbroker or consider their Financial Services Guide.

Example of annual fees and costs

The table below gives an example of how the fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

CLASS A EXAMPLE		BALANCE OF AUD 50,000 WITH A CONTRIBUTION OF AUD 5,000 DURING THE YEAR
Contribution fee	Nil	For every additional AUD 5,000 you put in, you will be charged AUD 0.
PLUS management costs	1.36% [†]	And for every AUD 50,000 you have in the Fund you will be charged AUD 680 each year.
EQUALS cost of fund		If you had an investment of AUD 50,000 at the beginning of the year and you put in an additional AUD 5,000 during that year, you would be charged fees from AUD 680*. What it costs you will depend on the fees you negotiate with your financial adviser[‡].

[†] Example of 1.36% is based on a fixed Base fee of 0.77% and a variable performance fee of 0.59% (assuming the Fund returned, net of Base fee and expenses, 8% p.a. versus the Benchmark return of 5% p.a. so $(20.5\% \text{ of } ((1.08 \div 1.05) - 1)) = 0.59\%$). In practice, fees charged will differ from the above due to fluctuations in the value of your investment, timing of contributions, whether a performance fee is earned, and the extent of the Fund's outperformance, returns and compounding.

* These examples assume the AUD 5,000 additional contribution occurs at the end of the first year, therefore management costs are calculated on the AUD 50,000 investment.

[‡] Additional fees and costs may apply, for example fund expenses and stockbroker fees (see above).

7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice

before investing in the Fund. The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund.

The Fund is expected to become an Attribution Managed Investment Trust from and including the 2016/2017 income

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS A

year. If so, investors will continue to receive a tax statement at the end of each income year specifying the nature of any amounts attributed. This statement will now also highlight any adjustments you should make to the cost base of the units you hold due to distributions from the Fund and income attributed.
