

ALLAN GRAY

ALLAN GRAY AUSTRALIA BALANCED FUND
FUND FACT SHEET

31 July 2017

THE FUND AND ITS BENCHMARK

The Fund seeks to earn long-term returns that are higher than its custom Benchmark. It aims to balance capital growth, income generation and risk of loss using a diversified portfolio of shares, fixed income and commodity investments from Australia and overseas.

INVESTMENT APPROACH

The Fund uses our long-term, contrarian and fundamental investment approach. It will primarily hold a selection of shares and fixed income investments from Australia and overseas that we consider undervalued.

Generally, around 60% of the Fund's portfolio will be invested in Australian investments, with the remainder in international investments. When Australian investments are more appealing the Fund may invest more in Australia – or vice versa.

While Allan Gray manages the Australian portion of the Fund, the Orbis Group manages the Fund's overseas assets. The Orbis Group is Allan Gray's sister entity and has successfully managed global equities for 25 years.

In implementing the Fund's strategy, Allan Gray adheres to detailed investment restrictions and limits, as set out in the Fund's Product Disclosure Statement and accompanying Information Booklet (together, the PDS).

THIS FUND MAY SUIT YOU IF YOU:

- Want exposure to an actively managed fund of shares, fixed income and commodity investments
- Want to easily diversify your portfolio using a single fund and are looking for fewer ups and downs than investing solely in shares
- Are looking to generate some income and increase your wealth in the long term
- Are comfortable setting aside \$500 per month for a savings plan, or investing an initial lump sum of \$10,000, and
- Can ideally invest for a minimum of three years.

NOTES ON PERFORMANCE

The Benchmark for the Fund is a custom benchmark comprising 36% S&P/ASX 300 Accumulation Index; 24% S&P Australian Government Bond Index; 24% MSCI World Index (net dividends reinvested) expressed in AUD; and 16% JPMorgan Global Government Bond Index expressed in AUD.

Returns shown are net of fees and assume reinvestment of distributions. Returns are annualised for periods of one year and over. Annualised returns show the average amount earned on an investment in the Fund each year over the given time period. Actual investor performance may differ as a result of the investment date, the date of reinvestment of income distributions, and withholding tax applied to income distributions.

GEOGRAPHIC ALLOCATION

This table highlights the Fund's exposure to regions. Net equity is the gross equity exposure of the Fund after reducing sharemarket exposure through exchange-traded derivatives. Fixed income regional allocation is based on the currency denomination of the instrument.

NOTES ON KEY INFORMATION

The price (net asset value) is cum-distribution.

The performance fee is 20% of the Fund's outperformance, net of the base fee, in comparison to the Benchmark. It is only payable where the Fund's outperformance exceeds the high water mark, which represents the highest level of outperformance, net of base fees, since the Fund's inception.

The base fee and the performance fee (if applicable) are calculated and accrued daily, and paid monthly. GST, net of RITC, is applicable to the base fee and the performance fee. A schedule of fees and charges is available in the Fund's PDS.

The indirect cost ratio (ICR), also known as the total expense ratio (TER), is a measure of the actual expenses (including fees) incurred by the Fund over a 12 month period. This will be shown from 28 February 2018.

General

Investors should consider the Fund's PDS before making any investment decision. The PDS, daily unit prices and additional information about the Fund can be obtained free of charge by contacting Allan Gray or from www.allangray.com.au. Managed investment schemes are generally medium to long-term investments. They are traded at prevailing prices and the value of units may go down as well as up. There are risks with investing in the Fund and there is no guarantee of repayment of capital or return on your investment. Managed investment schemes may borrow and engage in securities lending.

Past performance is not a reliable indicator of future results. Investors should always consider seeking professional financial advice. This document has been prepared without considering any person's financial circumstances, needs or objectives. It also does not constitute a recommendation, an offer to sell or a solicitation to buy units in the Fund. While Allan Gray has endeavoured to ensure the accuracy of this document neither Allan Gray, Equity Trustees Limited nor any of its related parties, their employees or directors, provide any warranty of accuracy or reliability in relation to such information or accepts any liability to any person who relies on it. Totals presented in this document may not sum due to rounding.

Notice to foreign persons

The Fund does not accept US persons as investors and is not marketed in the European Economic Area (EEA). Investors resident in the EEA can only invest in the Fund under certain circumstances as determined by, and in compliance with, applicable law.

Valuation and pricing times

The Fund's net asset value is calculated at 5.30pm (Bermuda time) each business day, with prices determined the following day. Application and redemption requests must be received by 2pm (Sydney time) each business day to receive that day's price. A different cut-off time applies if transacting via the ASX mFund Settlement Service.
