

Allan Gray Australia Balanced Fund

FUND FACT SHEET 31 MAY 2020

ALLAN GRAY

CONTRARIAN INVESTING

FOR INVESTORS RESIDING IN SOUTH AFRICA

If you are a South African investor, this Fund Fact Sheet is a Minimum Disclosure Document (MDD) and general investor report for the Fund, as required by the Collective Investment Schemes Control Act 2002 (South Africa). The MDD must be read together with the Fund's Product Disclosure Statement and accompanying Information Booklet (together the PDS).

For investors who wish to balance risk whilst seeking capital growth from a diversified portfolio of shares, fixed income and commodity investments from Australia and overseas. The Fund seeks to earn long-term returns that are higher than the custom benchmark.

INVESTMENT APPROACH

In carrying out our contrarian investment approach, the Balanced Fund has significant freedom to invest in different asset classes to take advantage of the best opportunities. This means we have great flexibility and can capitalise when markets are cheap. Our target range is to have anything between 40%-90% of the Fund invested in shares and 10%-50% in fixed income, depending on where the opportunities are.

As a result, the Balanced Fund can look very different to other funds of its kind, as the investment mix is based on finding the best value. For example, when Australian shares are expensive, more of the Fund may be invested in global shares. The same applies for other asset classes and regions.

In implementing the Fund's strategy, Allan Gray adheres to detailed investment restrictions and limits, as set out in the Fund's Product Disclosure Statement and accompanying Information Booklet.

This table highlights the Fund’s exposure to regions. Net equity is calculated by taking into account the exchange-traded derivatives used to reduce market exposure. Fixed income regional allocation is based on the currency denomination of the instrument. As exchange rate fluctuations can have a significant impact on returns, the Fund uses over-the-counter derivatives such as currency forwards to manage foreign exchange risk. Commodity Investments are not specifically allocated to a geographical region.

General Investors should consider the Fund’s PDS before making any investment decision. The PDS, daily unit prices and additional information about the Fund can be obtained free of charge by contacting Allan Gray or from www.allangray.com.au. Managed investment schemes are generally medium to long-term investments. They are traded at prevailing prices and the value of units may go down as well as up. There are risks with investing in the Fund and there is no guarantee of repayment of capital or return on your investment. Managed investment schemes may borrow and engage in securities lending. Past performance is not a reliable indicator of future results. Investors should always consider seeking professional financial advice. This document has been prepared without considering any person’s financial circumstances, needs or objectives. It also does not constitute a recommendation, an offer to sell or a solicitation to buy units in the Fund. While Allan Gray has endeavoured to ensure the accuracy of this document neither Allan Gray, Equity Trustees Limited nor any of its related parties, their employees or directors, provide any warranty of accuracy or reliability in relation to such information or accepts any liability to any person who relies on it. Totals presented in this document may not sum due to rounding.

Notice to foreign persons The Fund does not accept US persons as investors and is not marketed in the European Economic Area (EEA). Investors resident in the EEA can only invest in the Fund under certain circumstances as determined by, and in compliance with, applicable law. For South African purposes, the Fund is categorised as a worldwide multi-asset flexible portfolio.

Valuation and pricing times The Fund’s net asset value is calculated at 5.30pm (Bermuda time) each business day, with prices determined the following day. Application and redemption requests must be received by 2pm (Sydney time) each business day to receive that day’s price. Prices are cum-distribution.

*** Notes on key information** The performance fee is 20% of the Fund’s outperformance, net of the base fee, in comparison to the Benchmark. It is only payable where the Fund’s outperformance exceeds the high water mark, which represents the highest level of outperformance, net of base fees, since the Fund’s inception. The base fee and the performance fee (if applicable) are calculated and accrued daily, and paid monthly. GST, net of RITC, is applicable to the base fee and the performance fee. A schedule of fees and charges is available in the Fund’s PDS.

^ Fees and expenses for the last 12 months The total expense ratio (TER), is a measure of the actual expenses (including fees) incurred by the Fund over a 12 month period. The expenses are expressed as a percentage of the average daily value of the Fund during that period in order to determine the TER. Fund performance is shown after taking into account expenses in the TER. Expenses may vary and the current TER should not be used as an indication of future TERs.
