You should consider these documents before making a decision about the Fund.

In this PDS, a reference to units in the Fund is a reference to Class B units in the Fund.

The information in these documents is of a general nature only and does not take into account a person's personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before investing in the Fund.

This PDS is intended for investors residing in Australia. If you are not resident in Australia, it is your responsibility to comply with the laws of where you are from or living if you decide to invest in the Fund.

The Fund has been approved under section 65 of the Collective Investment Schemes Control Act 2002 and can be promoted in South Africa. The Fund is not a recognised or authorised collective investment scheme for the purpose of the United Kingdom's Financial Services and Markets Act 2000 and not marketed in the European Economic Area (EEA). Residents in the EEA can only invest under certain circumstances as determined by, and in compliance with, applicable law.

We may update this PDS with changes that are not materially adverse via disclosure on our website.

1. ABOUT EQUITY TRUSTEES LIMITED

Equity Trustees Limited (EQT)

EQT is the Fund's responsible entity and issuer of this Product Disclosure Statement. EQT was established in 1888 by an Act of Victorian Parliament to provide trustee and executor services. It has evolved into a diversified financial services provider offering a broad range of products and services to a large client base. EQT's responsibilities and obligations as the Fund's responsible entity are governed by the Fund's Constitution, the Corporations Act 2001 (Cth) and general trust law.

Allan Gray Australia Pty Limited (Allan Gray)

EQT has appointed Allan Gray to invest and manage the Fund's assets according to the investment guidelines in this PDS. Since 2006 Allan Gray has been consistently applying its investment approach and philosophy in Australia. You can read more about Allan Gray Australia at www.allangray.com.au

2. HOW THE ALLAN GRAY AUSTRALIA EQUITY FUND WORKS

The Fund is a managed investment scheme or unit trust, registered with the Australian corporate regulator, the Australian Securities and Investments Commission (ASIC). Unit trusts are vehicles that allow investors to pool their money with other investors. An investment manager (in this case Allan Gray) then manages the money. Allan Gray manages the pooled money in accordance with the investment guidelines set out in section 5 'How we invest your money'.

Interest that members acquire

When you invest, you buy Class B units in the Fund and become a member or unit holder. These units give you a beneficial interest in the Fund. You do not, however, have any entitlement to any particular part of the Fund or its assets and you are not entitled to participate in the management or operation of the Fund (except through investor meetings). Your return will mirror the return of the Fund's underlying investments, after expenses.

You can invest in the Fund by completing the application form attached to this PDS.

Pricing of the Fund

Units in the Fund are priced daily based on Class B's share of the Fund's net asset value. The price of the units will vary as the market value of the Fund's assets rise or fall.

When you invest in the Fund, you will be allocated units at the Class B application (entry) price for the Business day on which we process your application. When you redeem (withdraw), we will redeem your units at the Class B redemption (exit) price for the Business day on which we process your redemption request. The application and redemption price has a buy/sell spread of 0.20% of the cost of a unit built in. The buy/sell spread is designed to protect existing investors by ensuring that those who invest in, or redeem from, the Fund cover the cost of buying or selling the Fund's underlying securities.

Income distribution frequency and calculation

The Fund intends to distribute its distributable income (if any) on 30 June each year. The Fund's Constitution allows the Fund to make additional distributions.

What is an income distribution?

An income distribution is the payment of the Fund's distributable income to investors. It may include interest, dividends, and realised capital gains. Your distribution is the sum of your proportional entitlement to the Fund's distributable income and will be different from year to year.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS B

Distribution options

You can choose to have your distributions reinvested in the Fund or credited directly to your nominated Australian bank account. If you do not have an Australian bank account, your distributions will be automatically reinvested. Distribution payments to the nominated bank account are generally made within 10 Business days after the end of the

distribution period. Unless otherwise agreed, no buy/sell spread applies on distributions that are reinvested.

Before investing in the Fund, New Zealand investors must read the 'Fund Information for New Zealand investors' document, which provides more information about how the Fund's distribution reinvestment terms apply to you.

3. BENEFITS OF INVESTING IN THE ALLAN GRAY AUSTRALIA EQUITY FUND

Significant features of the Fund

Please consider whether the expected Fund characteristics below suit your investment needs and if you are comfortable with the risks of investing in the Fund. If you are in any doubt, please seek professional advice before investing.

Access to a contrarian investment approach

The Fund's investment approach sees it looking to buy securities that offer long-term value that are currently unpopular with the general investment community and financial press, or are not well known to the financial community. These securities are often underpriced by the market because sellers significantly outnumber buyers.

In these circumstances, Allan Gray is often early when buying such securities, which means that the Fund may experience some fluctuations or volatility. Allan Gray believes that these fluctuations are unfortunately necessary to gain the upside when the sharemarket recovers.

Benchmark-unaware and high conviction

Allan Gray will not buy a security simply because it is in the S&P/ASX 300 Accumulation Index (Benchmark) – it has to offer value as an investment. Allan Gray will also buy significant positions in securities that it believes may offer outstanding value even if these securities are not in the Benchmark.

Defined investment restrictions

The Fund has detailed investment restrictions/limits. The Fund is unable to purchase investments that are outside these restrictions.

Focused on the longer term

The Fund's investments are based on research which has a long-term focus of five to ten years.

Fully invested

The Fund aims to be fully invested in the sharemarket so that there are no prolonged periods where it will hold more than 10% of its assets in cash.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS B

You should read the important information about other features of the Fund in the Information Booklet before making a decision.

Go to www.allangray.com.au/documents/infobook.pdf for a copy of the Information Booklet. The material relating to the Fund's other features may change between the time when you read this PDS and the day you acquire units in the Fund.

Significant benefits of the Fund

The Fund has two significant benefits, both related to the Fund's aim to be fully invested in Australian equities at all times.

1. Real returns

The Fund focuses on buying investments that Allan Gray believes will offer long term value. Long-term investing in equities should provide an investor with a return that beats the risk-free interest rate (cash) as well as inflation.

2. The value that Allan Gray adds

The Fund aims to outperform the Australian sharemarket, and in particular, the Benchmark through the Allan Gray investment philosophy. If this is achieved, an investor could benefit from returns that are above both inflation and the overall sharemarket. Read more about this philosophy in section 5 'How we invest your money'.

4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risks. This page highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets, and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, an investment in the Fund, repayment of capital or any rate of return, or the Fund's investment performance. You may lose money by investing in the Fund or your investment in the Fund may not meet your objectives.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Sharemarket and individual investment risks

Sharemarkets and investments are generally volatile. As the Fund aims to be fully invested, the value of your investment in the Fund may fluctuate with the sharemarket. In addition, losses for the Fund may also not be linked to the sharemarket's overall returns. Such losses can arise for reasons specific to a company (e.g. a change in management) or if Allan Gray makes investment decisions resulting in poor returns.

Fund risk

The Fund could terminate, laws affecting registered managed investment schemes may change in the future, EQT or Allan Gray could become insolvent, and the fees and expenses could materially change. Investing in the Fund may give different results than investing directly in securities because of income or capital gains accrued in the Fund and because of investors redeeming from the Fund.

Liquidity risk

The Fund may, at times, buy securities which have limited levels of liquidity. Abnormal or difficult market conditions, inadequate market depth or disruptions to financial markets may result in normally liquid assets becoming illiquid or less liquid. As such, it may not be possible to sell the Fund's investments in time to pay unexpected large redemptions or there could be a significant delay before redemptions are paid. The ability to redeem may be suspended in the interests of all the investors in the Fund, even if other assets of the Fund may be readily sold.

Contractual risk

The Fund's counterparties may default on a transaction or the Fund's custodian may become insolvent. If this occurs, there may be additional costs or time delays associated with settling a transaction or appointing another custodian. This may have an effect on your ability to invest in, or redeem from, the Fund.

Derivatives risk

The Fund's derivatives exposure is predominantly limited to buying ASX-listed futures contracts to maintain the Fund's exposure to the ASX pending a decision on how to invest the Fund's cash. Trading in futures contracts does expose the Fund to the following risks:

- the loss of value because of a sudden price move
- potential illiquidity of the futures contract, or
- the inability of the Fund or the counterparty to meet margin payments.

Key personnel risk

The Fund depends on the expertise of Allan Gray and its employees. The Fund's performance could be negatively affected if Allan Gray does not retain key employees.

5. HOW WE INVEST YOUR MONEY

Fund investment profile

Benchmark

S&P/ASX 300 Accumulation Index.

Investment objective

To seek long-term returns that are higher than the Benchmark.

Investment approach

- Contrarian – we take a contrarian approach to investing by resisting popular trends and uncovering opportunities in areas where nobody else is looking.

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS B

- Long-term – we take a long-term view. We are willing to look through short term noise and wait for an investment's value to be realised. In a competitive market, practicing patience can give you a distinct advantage.
- Fundamental – we concentrate on understanding an investment's intrinsic value, and the fundamentals that determine value, rather than trying to forecast the next price move.

Investment exposure

Predominantly Australian listed securities.

Strategy

The Fund employs the Allan Gray investment philosophy to search for ASX investments based on defined investment restrictions (see Asset allocation).

Investor profile

Before you invest, you should consider the likely investment returns, the risk and your investment time frame.

Minimum suggested time frame

More than five years.

Risk level

High risk.

Investor suitability

The Fund may be suitable for investors:

- looking for a contrarian investment style exposure to the Australian sharemarket
- who are able to take a long-term view, and
- who can endure performance fluctuations.

Asset allocation

Allan Gray will implement the above strategy by adhering to the following investment restrictions. These restrictions are measured at a Fund level, and not at a class level.

1. Weights	The Fund's weight for a specific share shall not exceed that share's weight in the Benchmark by more than 10 percentage points.
2. Holdings	The Fund will not hold more than 10% of a company's issued voting shares.
3. Listed securities	No more than 10% of the Fund's net asset value may be invested in securities which are not traded on or under the rules of a sharemarket, and only where there is an expectation that the securities will be listed or convertible into listed securities within 12 months of acquisition.
4. Exposure	Allan Gray may not actively reduce the effective share exposure to below 90% of the Fund's net asset value.
5. No leverage	The effective share exposure shall not exceed 100% of the Fund's net asset value.
6. Options	No more than 5% of the Fund's net asset value may be invested in call options.
7. Derivatives	The Fund may invest no more than 10% of its net asset value in listed futures contracts for the primary purpose of managing liquidity and only if the underlying exposure is fully covered by cash or money market instruments.
8. Borrowing	The Fund has never borrowed and cannot borrow unless it is to meet unexpected large redemptions. Borrowing is limited to 10% of the Fund's net asset value and must be repaid within 90 days.
9. Investment grade	Any investment by the Fund in interest-bearing non-equity linked securities is restricted to Investment Grade Securities.

Investment restrictions

Allan Gray is permitted to make an investment which is not consistent with the investment restrictions if EQT and Allan Gray agree that the investment is not a material departure from the investment restrictions.

Labour standards, environmental, social or ethical considerations (ESG)

ESG considerations are only taken into account to the extent that they may have a material impact on the long-term financial value of an investment. Allan Gray does not apply formal ESG standards in selecting, retaining or realising investments and has not developed a methodology or weighting system for considering how ESG impacts an investment decision.

6. FEES AND COSTS

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from AUD 100,000 to AUD 80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website

(www.moneysmart.gov.au) has a managed fund calculator to help you check out different fee options.

The table below shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns of your investment or from the Fund's assets as a whole. See Section 7 on 'How Managed Investment Schemes Are Taxed'. You should read all the information about fees and costs because it is important to understand the impact on your investment.

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
Fees when your money moves in or out of the Fund		
Establishment fee (the fee to open your investment)	Nil	Not applicable
Contribution fee (the fee on each amount contributed to your investment)	Nil	Not applicable
Withdrawal fee (the fee on each amount you take out of your investment)	Nil	Not applicable
Exit fee (the fee to close your investment)	Nil	Not applicable
Management costs†		
The fees and costs for managing your investment	<p>The Fund's management costs consist of:</p> <ul style="list-style-type: none">• Base fee: nil• Performance fee: 35% (35.88% including GST net of RITC) of the Fund's outperformance in comparison to its Benchmark. A performance fee is only payable where the Fund's outperformance exceeds the high water mark, which represents the highest level of outperformance since the Fund's inception.• Indirect costs: nil	<ul style="list-style-type: none">• Base fee: Not applicable• Performance fee: Calculated and accrued daily and paid monthly.• All fees and costs are paid out of the Fund's assets.
Services fees		
Switching fees (fees for changing funds)	Nil	Not applicable

† Management costs are not negotiable.
Additional fund expenses and stockbroker fees may apply (see below).

Management costs

Performance fees are calculated and accrued daily and paid monthly.

It is not possible to estimate the Performance fee payable in any given year, as we cannot forecast the performance of the Fund. As an indication, based on performance experienced by the Fund in prior periods, EQT has estimated that the Performance fee payable per annum may be AUD 930 assuming an annual account balance of AUD 50,000 during the year. Actual Performance fees for current and future years may differ and may not be payable at all if the Fund underperforms its Benchmark for a relevant period.

Fund expenses and transactional costs

Allan Gray has agreed to pay fees charged by the Fund's responsible entity, independent custodian and administrator as well as customary professional fees incurred by the Fund on a day-to-day basis from the fee it receives from the Fund.

Aside from the Management costs, investors may bear certain extraordinary and unusual expenses incurred on behalf of the Fund from time to time, such as the cost of litigation.

In addition, Management costs do not include transactional and operational costs, being costs associated with the buying and selling of investments for the Fund. Costs such as brokerage, settlement costs, clearing costs, stamp duty and

Product Disclosure Statement

ALLAN GRAY AUSTRALIA EQUITY FUND – CLASS B

implicit trading costs are generally incurred in connection with day-to-day trading for the Fund or when there are applications into or redemptions from the Fund. Transactional costs are reflected in the Fund's unit price.

During the financial year ending 30 June 2018, the total estimated transaction costs for the Fund did not exceed the amount of buy/sell spread received by the Fund. This is because we trade patiently and seek to minimise transaction costs. However, these costs may differ in future years.

Buy/sell spread

The Fund's buy/sell spread of 0.20% of the cost of a unit is designed to cover the estimated transaction costs incurred by the Fund in buying or selling assets when you invest or redeem. The dollar value of these costs based on an application or redemption of AUD 50,000 is AUD 100 for each individual transaction.

No buy/sell spread applies if you switch your investment

between different classes of units in the Fund.

Financial adviser fees

You may elect to have the Fund pay your financial adviser a fee from your investment in the Fund. This may be as:

- a contribution fee of up to 2% when you invest in the Fund, and/or
- an ongoing fee of up to 1% p.a.

NOTE: The financial adviser you consult may charge you additional fees. Please refer to the adviser's statement of advice.

Changes to fees

We will give you at least 30 days prior notice of any proposal to increase Management costs. We may also reduce or waive these fees for certain sophisticated, professional or wholesale investors. Any such arrangement will comply with all applicable regulatory (ASIC) requirements.

Example of annual fees and costs

The table below gives an example of how the fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

EXAMPLE		BALANCE OF AUD 50,000 WITH A CONTRIBUTION OF AUD 5,000 DURING THE YEAR
Contribution fee	Nil	For every additional AUD 5,000 you put in, you will be charged AUD 0.
PLUS Management costs	1.86% [†]	And for every AUD 50,000 you have in the Fund you will be charged AUD 930 each year.
EQUALS cost of fund		If you had an investment of AUD 50,000 at the beginning of the year and you put in an additional AUD 5,000 during that year, you would be charged fees from AUD 930*. What it costs you will depend on the fees you negotiate with your financial adviser[‡].

[†] The Management costs example is based on the average annual return of the Class relative to the Benchmark since the Class' launch in 2012 to give a better indication of the amount that could be paid. In practice, fees charged will differ from the above due to fluctuations in the value of your investment, timing of contributions, whether a performance fee is earned and the extent of the Fund's outperformance, returns and compounding.

* These examples assume the AUD 5,000 additional contribution occurs at the end of the first year, therefore management costs are calculated on the AUD 50,000 investment.

[‡] Additional costs may apply. For example, financial advisers may charge you fees to facilitate an investment in the Fund. Please refer to the adviser's statement of advice. The Fund, Equity Trustees and Orbis do not receive any of these fees.

7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice before investing in the Fund. The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund.

The Fund will be treated as an Attribution Managed Investment Trust from and including the 2017/2018 income year. Investors will continue to receive a tax statement at the end of each income year specifying the nature of any amounts attributed. This statement will now also highlight any adjustments you should make to the cost base of the units you hold due to distributions from the Fund and income attributed.
