

# Allan Gray Australia Stable Fund

FUND FACT SHEET 31 JULY 2019

**ALLAN GRAY**

CONTRARIAN INVESTING

A more conservative investment that aims to minimise the risk of loss by seeking to outperform cash and boost returns by blending cash with selected Australian shares.

## INVESTMENT APPROACH

The Allan Gray Australia Stable Fund starts with at least 50% of its portfolio invested in cash and money market instruments. The remainder is invested in carefully selected Australian shares when the opportunity arises. It aims to outperform cash over the long term but with less volatility than the sharemarket. Using the same contrarian philosophy as all our Funds, the Stable Fund buys shares when they are undervalued and therefore a good opportunity, with the aim of benefiting when their value is recognised, they become popular and their price rises.

**General** Investors should consider the Fund's PDS before making any investment decision. The PDS, daily unit prices and additional information about the Fund can be obtained free of charge by contacting Allan Gray or from [www.allangray.com.au](http://www.allangray.com.au). Managed investment schemes are generally medium to long-term investments. They are traded at prevailing prices and the value of units may go down as well as up. There are risks with investing in the Fund and there is no guarantee of repayment of capital or return on your investment. Managed investment schemes may borrow and engage in securities lending. Past performance is not a reliable indicator of future results. Investors should always consider seeking professional financial advice. This document has been prepared without considering any person's financial circumstances, needs or objectives. It also does not constitute a recommendation, an offer to sell or a solicitation to buy units in the Fund. While Allan Gray has endeavoured to ensure the accuracy of this document neither Allan Gray, Equity Trustees Limited nor any of its related parties, their employees or directors, provide any warranty of accuracy or reliability in relation to such information or accepts any liability to any person who relies on it. Totals presented in this document may not sum due to rounding.

**Notice to foreign persons** The Fund does not accept US persons as investors and is not marketed in the European Economic Area (EEA). Investors resident in the EEA can only invest in the Fund under certain circumstances as determined by, and in compliance with, applicable law.

**Valuation and pricing times** The Fund's net asset value is calculated at 4.30pm (Sydney time) each business day, with prices determined the following day. Application and redemption requests must be received by 2pm (Sydney time) each business day to receive that day's price. A different cut-off time applies if transacting via the ASX mFund Settlement Service. Prices are cum-distribution.

**Fees and expenses for the last 12 months** The indirect cost ratio (ICR) is a measure of the actual costs incurred by the Fund over a 12 month period. The costs are expressed as a percentage of the average daily value of the Fund during that period in order to determine the ICR. Fund performance is shown after taking into account costs in the ICR. Costs may vary and the current ICR should not be used as an indication of future ICRs.
