IMPORTANT INFORMATION

This document is part of the Allan Gray Investments Guide for the Managed Account. This document must be read together with the Allan Gray Investments Guide, which contains essential information about the Managed Account.

None of the Investment Managers named herein or any of their associates and subsidiaries has prepared this document, or is responsible for its contents.

No one described in this document assures or guarantees the success of your investment, any particular Managed Account Portfolio, the repayment of capital or a particular rate of return.

Nothing in this document should be taken as the provision of personal financial advice by either the Responsible Entity, any Investment Manager named herein, or any of their representatives, associates or subsidiaries, because none of these parties are aware of your investment objectives, financial position or particular needs. No action should be taken without your consideration of your particular financial circumstances and investment objectives.

The performance of each Managed Account Model Portfolio is dependent on the performance of the underlying investments in the selected Managed Account Model Portfolios which can fall as well as rise in value, resulting in capital losses or capital profits. Investors should not take past performance as an indication of future performance. The general market and economic conditions that existed in the past could be different in the future and these differences could have significant impact on investment returns.

All of the Investment Managers have given and have not withdrawn their written consent to being named in this PDS as the Investment Manager in respect of the Managed Account Model Portfolios included in this Managed Account Model Portfolio Guide in the form and context in which they are included. Investment Managers do not make any other statements in this PDS.

The Investment Managers are responsible for managing the Managed Account Model Portfolios in accordance with the key investment parameters set out in this Managed Account Model Portfolio Guide. They do not hold any assets on your behalf nor are they responsible for executing trading in the underlying investments.

The Investment Managers are the owners of all intellectual property in the selection process used to determine each Managed Account Model Portfolio and that intellectual property must not be disclosed or used other than for the purpose of obtaining advice on, or for the administration, monitoring, management, and the satisfaction of legal obligations in respect of, the investor's account.

From time to time new Managed Account Model Portfolios and Investment Managers will be added. You can find this information on the website shown below.

AllianceBernstein Investment Management Australia Limited ('ABIMAL') is a subsidiary of the AllianceBernstein L.P Group ('AB'). AB is a leading global investment management and research firm that offers high-quality and diversified investment services to institutional clients, retail investors and private clients in major markets around the world.

AB delivers a comprehensive range of investment strategies across the capital structure. Partnering closely with clients, AB shape the most appropriate solutions for their investment needs today, tomorrow and beyond. From customised and multi-asset solutions to style-pure equity portfolios, index services to alternative investments and fixed-income portfolios; AB's broad array of investment services help to solve clients' increasingly complex investment challenges.

AB maintains research, portfolio management, wealth-management and client service offices around the world, reflecting their global capabilities and the needs of their clients. AB's global teams collaborate across asset classes and investment strategies to spark new thinking and deliver superior outcomes for clients.

DNR Capital is an Australian investment management company that delivers client-focused, quality, investment solutions to institutions, advisers and individual investors.

Founded in 2001, DNR Capital specialises in the delivery of individually and separately managed accounts in the Australian market and aims to deliver investment out-performance to investors.

DNR Capital is a signatory to the Principles for Responsible Investment ('PRI').

JBWere provides a wide range of, advisory and wealth management services to a substantial and diversified client base. It seeks to be the adviser of choice for clients throughout Australasia and, through its financial networks, provide leading capabilities that extend to financial markets globally.

JBWere provides extensive services, across every major asset class, to many private clients throughout Australia and New Zealand.

The principles of integrity and dedicated client service, astute market knowledge and a commitment to excellence are ingrained in the firm's culture. These values, combined with quality research and investment products, make JBWere a trusted partner for many investors.

Founded in 1995, **Private Portfolio Managers Pty Limited (PPM)**, is a privately owned boutique investment manager with a well-established track record of constructing concentrated Australian and Global equity portfolios for our clients and their financial advisers. Our investment objective is to grow our clients' portfolios over the long term using a disciplined & well researched investment process which seeks protection of capital with risk assessed tax effective returns. PPM offers Individually Managed Account (IMA) and Separately Managed Account (SMA) investment solutions across a number of broad investment strategies including balanced, income and growth style portfolios.

Proactive Portfolios Pty Ltd is a firm set up to deliver multi – asset class portfolios for financial advisers and their clients. The Proactive Portfolios approach to portfolio management is:

- active in the use of expert investment inputs in the management of both asset allocation and asset selection within asset classes
- proactive in the management of asset allocation across asset classes using a relative value approach which uses long term fair value as a benchmark for comparison against market prices for assets, and
- value based in asset selection and focused on not paying too much for assets within asset classes by using a fair value benchmark for asset acquisition

Ralton Asset Management Limited is a boutique investment manager owned and operated by experienced investment professionals. It is a highly focused value manager with an investment philosophy and research-driven investment approach that has been developed over many years. And as one of Australia’s only managers specialising in separately managed accounts, Ralton is able to combine active portfolio management with the best features of direct share ownership. The end result is a highly transparent and tax efficient investment portfolio professionally managed by Ralton.

SG Hiscock (SGH) was founded by Stephen Hiscock and 5 other principals in August 2001 and is 100% owned by staff. The principals were formerly employed at National Asset Management (NAM), a subsidiary of National Australia Bank Limited. SGH has a range of funds and a mix of wholesale clients in Australia as well as a number of high net worth and retail clients.

Watershed Funds Management (WFM) is a specialist Separately Managed Account (SMA) Provider and has been a pioneer in the delivery of these portfolio solutions to financial advisers. WFM leverages the expertise of a highly credentialed investment team to form a global thematic view that determines asset class and sector allocations. Our investment committee structure differs for each SMA and is chaired by an individual with niche expertise and a proven track record for managing portfolios within that asset class. With a research process that is both rigorous and thorough we have been able to deliver strong historical returns across our full suite of SMA’s.

An investment in a Watershed SMA provides professional and active investment management with full transparency of holdings, transactions and structure. Watershed seeks to form a collaborative relationship with advisers, actively communicating portfolio strategy in the current market environment so that advisers are better equipped to communicate with their clients.

Investment objective	To provide competitive total returns from income and growth from a portfolio of assets which are diversified across Australian and International shares, Property Securities and Cash and Fixed Interest. The aim is to outperform the multi-sector conservative benchmark consistently over rolling 5 year periods.	
Investment strategy	<p>The Portfolio invests in securities listed on the ASX as well as Fixed Interest and Cash to provide asset allocation to the following asset classes:</p> <ul style="list-style-type: none"> • Australian equities – via a direct portfolio of shares and Exchange Traded Funds using inputs from an Expert Investment Panel including leading researchers and fund managers • International equities – via a portfolio International equities – via a portfolio of specialist Exchange Traded Funds • Property Securities - via a portfolio of specialist Exchange Traded Funds • Cash & Fixed interest. <p>The asset allocation across the four asset classes is then managed using the Proactive Portfolios Asset Allocation Process. From time to time significant shifts in asset allocation will be made based on the assessment of where to find the best value using a three to five-year planning horizon. The operating ranges for asset allocation are very wide and allow for very low or very high allocations to equities to allow the best overall strategy to be used in the interests of investors where market prices have moved to extreme levels.</p>

Watershed Emerging Leaders

Benchmark	ASX Small Ordinaries Accumulation Index	
Investment universe	ASX ex-100 but greater than 100M in Market Capitalisation	
Investment objectives	To outperform the Small Ordinaries Accumulation Index over the medium to longer term (three to five years) by 2-3%	
Investment strategy	<p>The SMA strategy is to identify, and invest in, mispriced listed companies using a fundamental “bottom-up” stock picking approach.</p> <p>Watershed recognises that investment markets are regularly inefficient with regard to the appropriate market pricing of securities, particularly within the market for smaller to mid-cap listed companies. Generally, companies outside the S&P/ASX 100 are not as comprehensively researched as the larger companies. Further, given that many of these smaller companies are typically at the earlier stages of their growth cycle (i.e. emerging growth companies), they are often not fully understood nor appropriately priced by the market relative to their true growth prospects.</p> <p>Watershed’s investment philosophy recognises the existence of pricing inefficiencies, and is focused on conducting in-depth research to identify, appropriately value, and invest in undervalued companies. All investments must offer a clear path (i.e. catalyst) for a positive re-rating to occur, and thereby support favourable investment outcomes.</p>

Investment universe	<ul style="list-style-type: none"> • Cash • S&P/ASX 200 • ASX-listed Exchange Traded Funds (ETFs) 	
Investment objectives	The main objective of the Australian Share Portfolio is to provide market-leading returns over the medium to long term from a concentrated portfolio of Australian “blue chip” shares, aiming to deliver an investment return (after fees) that outperforms the S&P/ASX200 Accumulation Index over a rolling three-year period.	
Investment strategy	<p>The manager believes that macro-economic cycles drive the majority of share price performance, both short and long term. Recognising that economic cycles have major implications on the volatility of corporate earnings across industries, it seeks to exploit these cycles to achieve higher than index returns over time.</p> <p>Rigorous fundamental analysis is undertaken on businesses to ensure that the portfolio holds high quality investments and companies, shifting the allocation between asset classes and sectors (early, mid or late cycle cyclicals and defensive sectors) given the current and expected economic environment.</p> <p>Watershed also believe that short term market sentiment often creates divergence between valuations and market pricing and looks to exploit this by actively managing overall market exposure and cash weight.</p>

Benchmark	UBS Bank Bill Index
Investment universe	Cash ASX-listed Corporate Bonds Exchange Traded Funds (ETFs) ASX-listed Fixed Interest ETFs ASX Hybrid and Debt Securities
Investment objectives	To generate an income return of 2% above the official cash rate (after fees) from a concentrated portfolio of listed bond, hybrid and debt securities. The portfolio should be viewed as defensive with some capital volatility and is not expected to generate any long term capital growth.
Investment strategy	<p>Hybrid securities are higher-yielding investments, generally paying regular income to investors via a defined margin above the prevailing bank bill rate. They are particularly attractive to investors seeking superior yields than available from a cash account or term deposit in a low interest rate environment.</p> <p>The portfolio has a bias towards listed bond exposure and highly rated floating or variable rate securities to minimise interest rate risk, and investment grade issuers.</p> <p>The Investment Committee undertakes the following steps when constructing the portfolio:</p> <ol style="list-style-type: none"> 1. Review the current macro environment looking at where positioning in the interest rate cycle and other factors such as global credit spreads 2. Evaluate key details of the issue to ensure it meets the investment criteria evaluating factors such as yield, credit quality of issuer, conversion details, franking, maturity date 3. Undertake thorough analysis to isolate the securities that offer the best risk/return profiles 4. Construct the portfolio then constantly monitor and formally review on a weekly and monthly basis.

Investment objectives	The objective of the Watershed International Share Portfolio is to provide attractive investment returns over the medium to long-term while reducing the risk of permanent capital loss. The Portfolio aims to outperform the MSCI World Index (excluding Australia) over a rolling three-year period by 2 - 3% per annum.	
Investment strategy	<p>The Portfolio consists of investments in high-quality global securities and businesses whose shares are listed on major global stock exchanges.</p> <p>The Watershed philosophy for international equity investing is to invest only in businesses with a competitive advantage that operate in industries with high barriers to entry and that are managed by highly regarded managers. Furthermore, these businesses must deliver high returns on shareholders' equity with low gearing, and have a long track record of growth in sales, earnings and dividends.</p> <p>Watershed may also invest in high growth, non-dividend paying businesses if these businesses are dominant players and disrupters in their industries. However, investment in these type of businesses is the exception rather than the rule and exposure to these businesses is limited to no more than 15% of the portfolio.</p>
